

Date :- 11th Jan 2023

Week No :- 1

Activity No :-

Project Work Done :- Did the discussion with entire batch members.

Specially discussed with previous group's members.

So, finally we finalise the group members for current semester Mini Project.

Date :- 18th Jan 2023

Week No :- 2

Activity No :-

Project Work Done :- Firstly we discussed on the different-different technologies, its pros & cons. Then by analyzing the all points, we choosed the 'Android Development'.

And we decided that to use 'Java' for programming language.

And therefore we used the 'Android studio' as an IDE.

Date :- 25th Jan 2023

Week No :- 3

Activity No :-

Project Work Done :- We listed down the individual's topics, ideas for the project.

Then we finalise the our topic i.e, 'Chatting Application'.

And named the our android chatting application i.e, 'Chat It'.

Date :- 1st Feb 2023

Week No :- 4

Activity No :-

Project Work Done :- This entire week,
We searched out documents, surveys,
lithechar reviews, etc...

Then we studied it, analized it,
Found out some key points, understood the
some missing features, problems, etc....

And finally we summarised the each &
every noted points.

Date :- 8th Feb 2023

Week No :- 5

Activity No :-

Project Work Done :- Made the PPT of the our mini project.

Mainly, we searched out some similar applications to get basic idea for project.

Then we all group members discussed so much & designed the overall architecture of our application.

Date :- 15th Feb 2023

Week No :- 6

Activity No :-

Project Work Done :- We started the designing part first. We created & designed & the updated it so many times, until it looks like superb and user friendly.

Also, we initialized the some coding part of the application, which was very basic & mandatory.

Date :- 22nd Feb 2023

Week No :- 7

Activity No :-

Project Work Done :- Review 1:

Wonderful discussion happened with our guide, in a such way that; we got the more clarity of object, what to do & all...

Mam advised the some things by which we can definitely move towards great progress.

We noted the all points to work with/on them.

Patil

Date :- 1st Mar 2023

Week No :- 8

Activity No :-

Project Work Done :- We continued the Frontend part of application.

We were trying to make the user-interface very cool & user friendly, at every possible point.

By using some libraries, dependencies, we reduce the complexity of designing Frontend part.

And finally we made the complete Frontend Part.

Date :- 9th Mar 2023

Week No :- 9

Activity No :-

Project Work Done :- Now, we moved to backend / coding part.

To make the application fully functional, we needed the database which keeps the user & application's services linked with each other 24x7 whenever, wherever.

So, we choosed the 'Firebase' as a database. Linked the entire project with Firebase.

And created the database.

Also completed the some coding part of backend to initialize atleast basic & main functions.

Date :- 15th Mar 2023

Week No :- 10

Activity No :-

Project Work Done :- Review 2 :

Firstly, we updated PPT, documents & code files.

And then we represented our project's idea with its implementation to the our another guide.

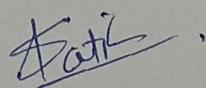

Overall, Mam was also impressed by the project idea & product !

Mam, discussed some views w.r.t. Project & suggested the somany thoughts, tips and things for to make the Product best !

Date :- 22nd Mar 2023

Week No :- 11

Activity No :-

Project Work Done :- Till this moment,

We were glad to say that, we completed the overall backend coding part.

From the all suggestions, feedback & the our both guides;

We tried to add some more features, functions for to give the better experience by the our applications.

By completing the overall coding/non-coding Part, we made the application fully workable!

Date :- 29th Mar 2023

Week No :- 12

Activity No :-

Project Work Done :- Final touch up :

Till now, we did the project assuming as a, one problem statement is given to us & we tried to solved it which was successful.

But the solution is not completed, even the problem started from here!

We did it as a developer but now we need to take action & do the task for to make this product to Real World solution.

For that we discussed a lot, researched too much & worked on many factors and implemented them to make the product best !

Date :- 5th April 2023

Week No :- 13

Activity No :-

Project Work Done :- We reported the overall progress, impact of Review 1 & Review 2, to the our main guide of Mini Project.

And also, we started to make 'Project Report' from scratch which explains the overall complete end-to-end project, development & project idea and everything.

Date :- 12th Apr 2023

Week No :- 14

Activity No :-

Project Work Done :- We are here with the complete working Project, all documentation Part, PPT, Literature review & this log book along with Project Report.

We are concurred with,
the Project is still having the lack of features,
functions & some other factors;
but due to academics,
we are bounded by time.
But we will definitely scale up this Project in
upcoming academic years.

Lastly, We thanks to both the guides for your
support, guidance, availability, mentorship, etc....

We are greatful for having you with us !
